We work virtually with social entrepreneurs around the world. An 8 am ET class allows us to simultaneously support entrepreneurs in 13 time zones from Texas to Myanmar! For entrepreneurs in countries prone to power brown-outs and government-controlled internet shut-downs, we created short video lessons and record live calls so that they can learn as their time, electricity, and bandwidth (literally and figuratively) allow.

## Social Enterprise Trainee Success Story

A refugee woman on the Thailand-Myanmar border faced financial hardships, struggling to provide basic necessities for her family. After 3 months of training, her monthly income increased by \$112, enabling her to afford utilities and a doctor's visit. With 6-12 months of training, she received help to obtain legal ID, affording her health insurance, a driver's license, transportation for her children's education, and the ability to support 3-4 generations in her household.

*"Avant-garde Entrepreneur Academy taught me how to move from a place of being overwhelmed to a place of inspiration. My vision is more clear, I am better at managing my time and energy, and I am operating from a place of clarity and peace!"*

## Our Experience Helping Global Change-Makers

### Ablestate, Uganda

David shifted his focus under our guidance, overhauling his IT firm's website and marketing, and growing his team. He now offers coding and life skills training to girls without formal education, leading to such a revenue boost he hired a sales manager. David's new work style empowers his team and refines business operations.

### Voice of the Girl Child & Vulnerable People, Nigeria

Aisha, recognizing the limits of a non-profit model, pivoted to a social enterprise with our help, empowering women and girls to craft and sell their own products. She's also launched an innovative app to protect women from gender violence, marking a bold step towards self-sufficiency and safety.

### Business Analyst, Pakistan

After a devastating attack on his community, Mr. S joined us seeking solace and direction. Through our program, he honed his focus, deciding to prioritize his community's well-being over all else. His journey from chaos to clarity has set a strong foundation for his business's growth, all while ensuring the care of his people.

### The Learning Fortress, Nepal

Bipana fine-tuned her initiative with our input, providing non-formal education to marginalized children with greater clarity and efficiency. By cutting out the non-essentials and bolstering her enterprise skills, she's vastly improved her community outreach and engagement, leading to 'amazing results' in her words.
